The WOW Bus will be touring the UK from October to March, reaching young people from all backgrounds in the heart of their own communities. Jump on board and join the movement!

WOW Activity Packs

WOW Activity Packs have been co-designed with young people to link to the national curriculum and are free to download for education providers and community leaders. Focusing on Healthy Relationships, Personal Safety, Community & Resilience and Building a Business, these packs use creative activities and thought-provoking discussion to bring the themes to life.

Each pack contains a full set of ready-to-use resources including a powerpoint and teachers' notes.
